## WORK EXPERIENCE

### Solvd Laba Final Project Shop Page

Solvd.laba

08/2024 - 11/2024

#### Achievements/Tasks

- Developed a responsive and dynamic e-commerce platform showcasing unique clothing items, providing a seamless and engaging shopping experience.
- Leveraged Next.js for server-side rendering and static site generation, integrated React Query for efficient data fetching and caching, used MUI for a polished, modern UI design, and implemented NextAuth to enable secure user authentication.
- The project emphasizes modern design principles and user-friendly navigation, aiming to deliver a smooth, intuitive shopping experience across devices.

### Frontend Developer

CentralTicket

12/2022 - 07/2023

Corrientes, Argentina

#### Achievements/Tasks

- I collaborated with the development team to implement new features and solve technical issues, maintaining a high standard of quality in code and design.
- I participated in planning and follow-up meetings under agile methodologies, actively contributing to the project development and delivery process.
- I performed extensive testing to guarantee the stability and performance of the website, ensuring a smooth user experience.

## EDUCATION

### React.js Development Course

Solvd.laba

03/2024 - 10/2024

Remote

#### Courses

- Completed a React.js course focusing on modern web development.
